

# Emperor

## EmFilm S Shaped Film Dressing

Made from latex-free, semi-permeable polyurethane film membrane and coated with a hypoallergenic acrylic adhesive, EmFilm S Framed Dressings are designed to be breathable with good oxygen and moisture vapour exchange.

Waterproof and impermeable to liquids, bacteria and viruses, the risk of infection is reduced while also enabling effective wound monitoring through a transparent film.

Protection of newly forming tissue

Fixation of primary dressings

Provision of a 'moist wound healing environment'

The patient can shower with the dressing in place

Prevention of contamination by dirt or bacteria, thus a reduced risk of wound infection

Rounded edges and consistent hypoallergenic adhesive help prevent dressing damage and early removal, reducing the number of dressing changes needed.

## EmFilm S Application Guide

### Preparation:

1. Ensure that the skin surrounding the wound is clean, dry, and free from grease, soaps or detergents
2. Select a dressing that is of a suitable size and shape. Ensure the dressing has a 2cm overlap around the wound edge

### Dressing Application:

1. Peel the liner from the dressing to expose the adhesive surface
2. Position the dressing centrally over the wound
3. Apply the adhesive side of the dressing onto the skin
4. Gently remove the frame and smooth dressing edges
5. Smooth the entire dressing from the centre toward the edges
